

DRIFTWOOD

I never quite understood this feeling
And it feels so good
We'll never be the same
The first time we saw daylight, screaming
The first time we cried
Nothing else we could do

REFRAIN: All the people are coming like driftwood
And it feels so good, so good
All the love we find inside our hearts
All united one colour, all nude
Wouldn't that be good, like it should be
If this could be reality

My brother said listen up
We keep on riding to the final stop
No worries on my mind, just pleasure
Then we just spread our wings
And fly away
And we go higher, higher, higher, higher

REFRAIN
